

# KPF Acquisition Brings Increased Opportunities for Growth

Serving The Growing Demand For Alternative Protein Solutions

KPF produces a wide variety of US sourced soy protein, including value-added textured ingredients with plant-based beef-, pork-, and seafood-type flavors. They also bring extensive extrusion know-how and capacity.

FOODS** LLC

**ADM**<sup>®</sup>

ADM is a world-class leader in nutrition and agricultural supply chain management with unparalleled technical and processing ingenuity to scale up and accelerate speed to market.

**KPF promises to be a great fit with ADM,  
broadening our soy ingredients portfolio and expanding our global extrusion capabilities.  
We can offer our customers even more food product innovation possibilities  
by leveraging the strengths of both companies.**
